

Generator Financing

Low monthly payment plans for home generators.

POWER NOW. PAY LATER.

A standby generator is a significant investment in your home, and one that will pay off for you over time. It's also one that you can pay for over time. Our monthly payment plans mean you can support your home without breaking the bank.

Flexible financing

A generator from Powers Guaranteed Services makes power outages simple. If the lights go out? Standby power means they come right back on again. We also make financing simple with Synchrony™, the premier consumer financial services company. Interested in a payment plan? Let us know and we'll give you straightforward answers regarding your options. Applying is easy and approval is usually very fast.

- A simple application process, and fast credit decisions
- Unsecured, revolving credit lines
- Convenient monthly payment options
- Online account management
- Promotional financing options*

*Subject to credit approval. Minimum monthly payments required. Ask us for details. For all promotions: Qualifying purchase must be made with your Home Design credit card issued by Synchrony Bank and a \$29 account activation fee will apply and be charged at the time first purchase posts to account. For new accounts: Purchase APR is 26.99%; Minimum Monthly Interest Charge is \$2. Existing cardholders should see their credit card agreement for their applicable terms. Subject to credit approval.
